

2027 CHALLENGE QUILT – SCRAPPY LOVE -

Use Your Creative Talent + Fabric Scraps =
Make A Quilt - Save Our Landfills & Environment

=

Textile waste is a threat to our planet and contributes to water and air pollution and resource depletion. Reducing fabric waste at the source is essential for a sustainable future. Using our fabric scraps shows that quilters care for the environment and with actions can make a difference. Have your challenge quilt reflect the beauty of our environment with a message of love and care. Let's show respect and reverence to our clean air, water, and land as portrayed in your Challenge quilt!

Quilt Specifications:

- **Fabric Requirements:** Have fun using ONLY scraps, in any size up to a fat quarter. You may also add ONLY one additional fabric, in any amount, to help you create the quilt size you want.
- **Size Requirements:** Your quilt should have a minimum perimeter of 96" (for example, 24" x 24") and a maximum perimeter of 180" (for example, 40" x 50").
- **Techniques:** Enjoy exploring any quilting method you like, including hand or machine piecing, appliqué, embellishments, beading, thread painting, paper piecing, and fabric manipulation. Let your imagination sparkle!
- **Quilt Definition:** Your quilt should include three layers—top, batting, and backing—be quilted by hand or machine and be finished with binding.
- **Hanging Sleeve:** Please add a 4" sleeve at the top so your quilt can be proudly displayed.

Deadline: January 11, 2027 – You have plenty of time to let those creative ideas dance and take form!
