

# How to use the Accu Quilt

Kristine Ebersol

The guild has an Accu Quilt machine that members can check out from the library to use. We will learn about this machine, basics of how to use it, options available and the borrowing process. This will be a hands-on session so please bring fabric you would like to cut into precise shapes to practice to learn how to use the machine. If you have a project in mind, bring fabric along and we can work together to best utilize this machine. If you don't have anything in mind yet, bring some fabric to practice with! Feel free to bring your sewing machine and we can also practice putting these precision cut shapes together!

## Materials to Bring:

Fabric to cut into precise pieces on the Accu Quilt

Sewing machine if you choose to sew your accurately cut pieces together, and all sewing machine paraphernalia
